Walk in Harmony

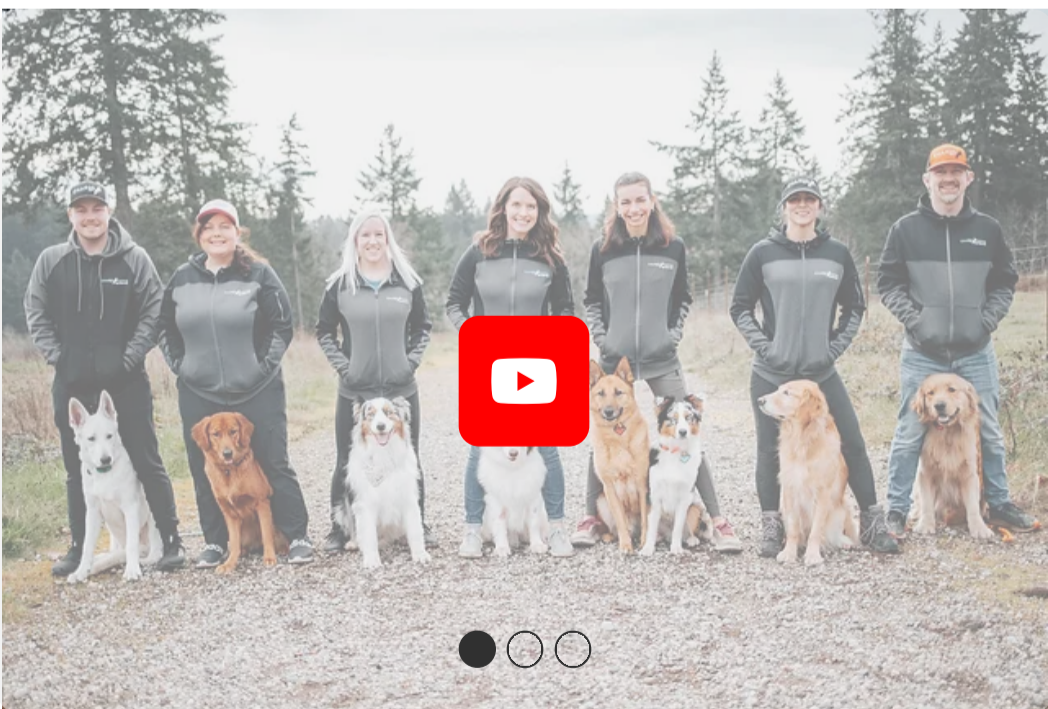

Dealing with Pulling

Reflect Your Style

Size Matters

Material Matters

Train Consider

Understand how walking in harmony strengthens the bond between you and your dog.

Treat Walking

Mindful Walking

- 1 Dogs are social animals, and walking side by side mimics the pack structure, reinforcing the idea that you and your dog are part of a cohesive unit

- 2 Teach your dog to stop when you stop during the walk, rewarding them for their attention and cooperation

- 3 Be consistent in treating good behavior. This helps your dog understand what is expected.

This exercise highlights the positive impact mindful walking can have on the dog-owner bond.

Treat Walking

Mindful Walking

1

Before starting the walk, take a moment to center yourself. Take a few deep breaths to clear your mind.

2

Set positive intentions for the walk enjoying the outdoors, or simply bonding with your dog.

3

As you start walking, be fully present in the moment. Pay attention to your surroundings, and your dog's behavior.
